Script 1 - Speaking Before the Funnel

Hi this is _____ how can I help you? (Let client state the ad they are responding to)

Great I can help you with that. We are an international marketing, lead generation, and business consulting firm that are currently looking to bring on self motivated individuals who can work remotely from home to take inbound calls in our call center. Do you have a land line, or cell phone in which you could take calls on to work remotely from home? (Let client answer)

Do you have a quiet place to be able to speak on the phone in your home?
Do you have a computer with internet?

Ok great! Here's what I am going to do. I am going to send you an orientation video about our company, the business, and the jobs we are currently looking to fulfill. What is your name, number, and email address? (Collect all 3)

I'll be emailing you a link to watch 3 videos. At the end of the 3rd video after seeing the various jobs we have you will be asked to fill out a survey. Take a few moments to fill that out. This will let me know the info I need to know about you in order to best help you get placed with one of our opportunities. We offer both hourly and salary jobs as well as commission and production based opportunities. Once you fill that survey out at the end I will received that info and call you back for an interview.

(Then send your cc1 video link on your site to go through your funnel)
